

17th Annual Conference

Wednesday 26th August to Friday 28th August 2020

Amsterdam University of Applied Sciences,
Wibaustraat 5a, Amsterdam

CONNECTING THE PAST TO THE PRESENT AND THE FUTURE

Amsterdam is the perfect venue for HEIRNET 2020. Since the 16th century cosmopolitan Amsterdam has been at the heart of Europe's transformative impact upon the world that affects everyone's identities.

Connecting the past to the present and to the future makes history relevant to students. This can be a difficult task, because they usually tend to think that history is 'all dead and gone'. Students often fail to see that the only way to make sense of the present and to develop feasible expectations for the future is provided by orientation on the past. Teaching how to connect the past to the present and to the future should therefore be a central concern of history teachers. Relevant history teaching cannot do without these connections rooted in the past.

18. Statutory Curriculum Documents, National Curricula and National Examinations/Testing

- a) National curricula in countries with regional and communal histories that are in conflict with the national master narrative or canon, including dealing with the Guilty past, see also **Themes 1, 6, 12, 13**
- b) The implementation and interpretation of statutory curriculum documents in classroom contexts
- c) The correlation between national curricula, their implementation and pupil's historical learning

- d) National and other curricula's impact upon teaching materials and classroom practice/pedagogy
- e) Testing and its impact upon the curriculum, teaching and learning at all levels
- f) The impact of government inspection and examinations, testing and assessment
- g) The PISA [Programme of International Student Assessment], the OECD and PISA's impact upon History Education through governments' overt politicisation of national curricula, see also **Theme 8k)**

19. Assessment driven History Education: Assessment – Its Nature, Purpose and Role

- a) The recording, monitoring and reporting of historical teaching and learning
- b) Peer assessment, formative, summative and diagnostic assessment
- c) Criterion based and norm-referenced assessment
- d) Assessment based learning [teaching to the test] and its impact upon the curriculum and its implementation, i.e. teaching and learning [assessment based learning or learning based assessment?]
- f) The overall, every day impact of assessment on teaching, learning and pupil's personal development – cognitive, values, attitudes, behaviours, emotional intelligence etc.

20. Assessment and Awarding Bodies – secondary & tertiary education:

Assessment predominantly for History at the Secondary, 11-18, level is in the hands of Assessment and Awarding Bodies. These bodies gather extensive data, evidence, about examination performance that influences and shapes their curricula, in the context of government overview and guidance. Yet, this major, if not the major area of History Education research is something that the Education Research community has largely, if not totally, ignored.

With assessment driven / controlled history teaching – this is a vital area for the History Education community to consider.

- a) The role, nature, activity, influence and findings of Assessment and Awarding bodies in History Education
- b) The overall role, nature and impact of Assessment and Awarding bodies upon curricula, syllabi, examination patterns and papers and the awarding of marks/grades.
- c) Assessment – the hidden dimension in Tertiary 18+ and the Andragogy, Adult Education phase, see **Theme 17, n) to u)**

AREA E: TRAINING AND PROFESSIONAL DEVELOPMENT

21. Teacher Education: Training, Initial and Continuing Professional Development

AREA F: RESEARCHING & REPORTING HISTORY EDUCATION

22. Pure and Applied Research and Evidence Based History Education

- a) Data collection and data analysis
- b) How history teaching/learning is studied, e.g. classroom ethnography as a way of researching history education
- c) Research design and approaches for both new and experienced researchers
- d) Researching collaboration and partnerships between schools and universities and other agencies
- e) Case Study Research – applied research
- f) Curriculum Development – school based
- g) Curriculum Development – assessment bodies and government agencies
- h) Curriculum Development – academically based in Higher Education
- i) Curriculum Development, Implementation & Evaluation
- j) Evidence led policy and practice: institutionally grounded
- k) Multi Methods Research [MMR], Mono Method Research
- l) New frontiers in History Educational Research: theory, scholarship and practice
- m) Qualitative research – in the context of 'cases' based upon practitioner-research & evidence-based praxis
- n) Quantitative research – in the context of 'cases' based upon practitioner-research & evidence-based praxis
- o) University research in collaboration with teachers – partnership
- p) Researching Impact: control and pilot groups
- q) Research, government / jurisdiction educational policy, curricula and professional development
- r) Medical model of research involving practitioners at all levels, and their implementation
- s) **Communicating:** Writing History Education academic and professional articles, papers and reports: guidance and support
- t) **Reporting History Education:** other genres and their formats:– e.g. position pieces, vignettes, reviews, summaries, notes and communication media: also; e.g. on-line, video, websites, podcasts, power-points, oral, visual, performance, display

Complementary Workshops

Each research workshops will take as one of the conference's parallel strands.

- A single 90 minutes or two consecutive 45 minutes workshops can be held in a strand.
- Workshops should be theoretical, empirically grounded and fully conversant with the related literature, scholarship and research.
- Where there is an **introductory paper** for a workshop in a papers session, the workshop will be in the subsequent conference session if possible

Workshop proposers need to submit an abstract for their workshop in addition to the abstract for the related, introductory conference paper if they wish to make a paper presentation.
