

HISTORY EDUCATORS INTERNATIONAL RESEARCH NETWORK [HEIRNET]

18th Annual Conference

Wednesday 31st August to Friday 2nd September 2022

Amsterdam University of Applied Sciences,

Wibaustraat 5a, Amsterdam

CONNECTING THE PAST TO THE PRESENT AND THE FUTURE

Amsterdam is the perfect venue for HEIRNET 2022. Since the 16th century cosmopolitan Amsterdam has been at the heart of Europe's transformative impact upon the world that affects all our identities and futures.

Connecting the past to the present and to the future makes history directly relevant to students during the historically rooted era of Covid-19 and Climate Change & Global Warming. Previously students tended to think that history is 'all dead and gone'. Now they can appreciate that the orientation that the past provides empowers them to make sense of the present and develop feasible expectations. Teaching how to connect the past to the present and to the future is a central concern of history education. Relevant history teaching from the primary to tertiary levels depends upon these powerful connections deeply rooted in the past.
